

Assembly instructions Thermo composter KOMP 200 KOMP 250

UMWELTSCHUTZPREIS
ENVIRONM. PROT. AWARD
PRIX DE L'ENVIRONNEMENT
OÖ./U. AUSTRIA
1990 & 1995 & 2000

1

1) Put the elements with the sticks together. The two sticks with the eyes must be next to each other.

2) Set up the walls and put it together to a square.

2

Place thermo composter on a stable and horizontal ground on the earth outdoors.

3

Attention! The hinge eyes of the sticks always have to show off the compost bin! Right assembled means you can open the lid easily all the way backwards. If not you will either break the hinge eye or the axe of the lid!

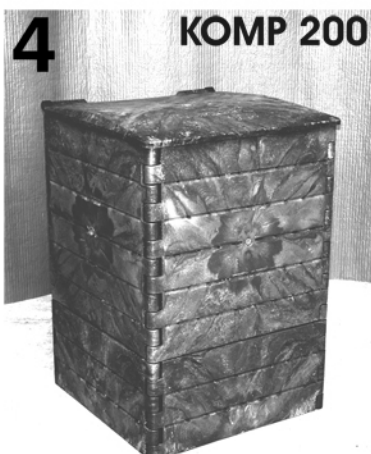

3) Fix the axes of the lid in the hinge eyes of the sticks. Watch carefull the instructions shown beside.

NO!

YES!

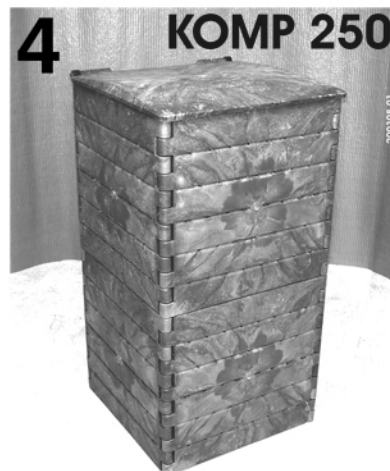

4

KOMP 200
